PROFILE

Next.js & React.js Developer with 5 years of experience in web application development, possessing a deep understanding of the software development life cycle (SDLC). Proficient in building scalable, high-performance web applications using React.js, Next.js, JavaScript, TypeScript, CSS, and HTML. Skilled in designing modern UI/UX, implementing state management (Redux), optimizing performance with SSR, SSG, and ISR, and integrating secure authentication methods (JWT, OAuth). Passionate about writing clean, maintainable code and delivering seamless user experiences

EDUCATION

Bachelor of Engineering (B.E)

- T J S Engineering College (2014 - 2018) affiliated to Anna University.
  CGPA - 7.2
- 12th Percentage : 73.3 %
- 10th Percentage : 78.6%

SKILLS

- ✅ **Front-End Frameworks: React.js, Next.js**
- ✅ **Programming Languages: HTML5, CSS3, JavaScript, TypeScript, ES6, JSX**
- ✅ **State Management: Redux, Redux Toolkit**
- ✅ **UI Libraries & Tools: Ant Design, Material UI, Bootstrap, Chart.js, Tailwind CSS, jQuery, Radix UI, DLS (Design Language System)**
- ✅ **Web Development: UI Design, Front-End Architecture, Responsive Design, Cross-Browser Compatibility**
- ✅ **Development & Debugging: RESTful APIs, Git, GitHub, npm, Debugging**
- ✅ **Software Development Practices: Single Page Applications (SPAs), Agile/Scrum (Jira)**
- ✅ **Backend Technologies: Node.js, Express.js**
- ✅ **Databases: MongoDB, PostgreSQL**
- ✅ **API Development: RESTful APIs, CRUD Operations, Authentication & Authorization (JWT, OAuth)**
- ✅ **Testing: API Testing (Postman)**

WORK EXPERIENCE

ShootUp Technologies Pvt. Ltd. | April 2024 - Present
Next.js & React.js Developer

- Developed and maintained Next.js and React.js applications for financial platforms, including a **Client Portal (React.js) , IB Portal(React.js), and Payment Portal(Next.js, React.js,Express.js, Node.js, MongoDb and PostgreSql)** for FP Markets.
- Our Project especially payment portal is the engine that drives financial transactions in e-commerce. It ensures secure, fast, and smooth payments — making online buying possible.
- Implemented SSR (Server-Side Rendering), SSG (Static Site Generation), and ISR (Incremental Static Regeneration) for optimized performance and scalability.
- Utilized API Routes and Middleware to enhance security, authentication (JWT, OAuth), and data processing.
- Improved SEO Optimization, Caching, and Performance Optimization to enhance load speeds and user experience.
- Built responsive UIs using Tailwind CSS, SASS, and state management with Redux for dynamic data handling.
- Developed and maintained a Design Language System (DLS) to ensure visual consistency, accessibility, and brand coherence across components and platforms.

JOY Infotech Consulting Pvt. Ltd. | Sep 2023 - March 2024
React.js Developer

- Developed and maintained React.js web applications for our client Vivriti Capital Pvt. Ltd., based on Functional Requirements Document (FRD) and Business Requirements Document (BRD).
- Implemented Ant Design to create a modern, responsive UI, enhancing user experience in the credit and finance sector.
- Integrated ESG (Environmental, Social, and Governance) principles into application development for improved sustainability and compliance.
- Worked closely with business stakeholders to ensure feature development aligned with financial services requirements.

Apsis Technologies Pvt Ltd. | June 2020 - Aug 2023
Front-End Developer

- Developed and maintained front-end interfaces and applications, transitioning from HTML, CSS, and JavaScript to React.js for improved interactivity and performance.
- Implemented Chart.js for dynamic data visualization, enhancing user engagement with real-time insights.
- Integrated drag-and-drop functionality and JWT-based authorization, improving security and usability.
- Stayed updated with industry trends and best practices, ensuring adherence to modern development standards.
